SIDDHARTH KUMAR

MERN Stack Developer

Ali Vihar, Delhi, India • +91 9958234365 • siddarth936@gmail.com • GitHub: github.com/sammsidd7777

PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with 1 year of experience designing and building full-stack web applications. Proficient in React.js, Node.js, Express.js, and MongoDB, with hands-on experience integrating RESTful APIs and AI-powered features. Passionate about crafting scalable, user-friendly interfaces and delivering impactful digital solutions.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Redux Toolkit, RTK Query
Backend	Node.js, Express.js, RESTful APIs, JWT Authentication
Database	MongoDB, Mongoose ODM
Tools & Platforms	Git, GitHub, Cloudinary, Postman

WORK EXPERIENCE

Web Developer Intern — Brain Technology Pvt. Ltd., Noida *June 2025 – Present*

Full-stack web development using the MERN stack in a professional product environment.

- Converted static HTML templates into modular, reusable React.js components, improving code maintainability
- Built scalable, responsive front-end interfaces with React.js and CSS, ensuring cross-device compatibility
- Integrated RESTful APIs to deliver dynamic, data-driven user experiences
- Collaborated in an agile team environment on feature development and code reviews

PROJECTS

Maid Hive — Service Booking Platform *Mar 2025 – Jun 2025*

Tech Stack: React.js · Node.js · Express.js · MongoDB · AI Integration

A full-stack maid booking platform enabling users to discover services, browse profiles, and schedule appointments. Service providers can register, manage profiles, and access a dedicated dashboard.

- Implemented AI-powered maid recommendation engine based on user preferences and real-time availability
- Built dynamic browse and filtering functionality for maid profiles including images, experience, and pricing
- Developed appointment booking system with availability-based scheduling logic
- Created responsive, mobile-first UI with dynamic content rendering
- Built full provider dashboard with registration, profile management, and booking overview

Blog Upload Application *Jan 2025 – Mar 2025*

Tech Stack: Node.js · Express.js · MongoDB · React.js / EJS · JWT · Cloudinary

A full-stack blogging platform with secure user authentication, rich post management, and cloud-based image handling.

- Implemented JWT/Passport.js authentication for secure user registration and login
- Built full CRUD functionality for blog posts with formatted content and dynamic rendering
- Integrated Cloudinary for reliable cloud image upload, storage, and retrieval
- Designed RESTful API layer with clean separation between frontend and backend

EDUCATION & TRAINING

Bachelor of Computer Applications (BCA) *IGNOU*

Class 12th *R K Govt Boys' School*

MERN Stack Developer Certification *Jan 2024 – Jun 2024*

Delhi Skill and Entrepreneurship University (DSEU)
